Exciting News: Introducing Pulsed Wave Therapy!

Dear Valued Patients,

We hope this letter finds you well. We're thrilled to share some exciting news with you—our clinic is now offering **Pulsed Wave Therapy / Shockwave Therapy** as part of our commitment to bringing you the most effective, non-invasive treatment options available!

At our core, we want you and your loved ones to live better, healthier, and more comfortable lives. Our mission is to provide exceptional care that helps you feel your best—and now, with **Pulsed Wave Therapy / Shockwave Therapy**, we're taking that to a new level.

Let me share a story that truly highlights the potential of this new therapy. For over a year I was suffering with plantar fasciitis. This is a condition that causes severe heel pain. I was doing exercises and stretches with minimal relief. One of my friends from Chiropractic College had a **Pulsed Wave Therapy / Shockwave Therapy** machine and encouraged me to come to his office and try it. After the first treatment I noticed immediate relief. After the 3rd treatment my pain was 100% gone! After just a few sessions, the improvement was remarkable. I knew right away this was something we had to bring to our entire patient family.

Pulsed Wave Therapy / Shockwave Therapy is a cutting-edge, non-invasive treatment that uses focused acoustic energy (sound waves) to promote healing in soft tissue areas. **Pulsed Wave Therapy / Shockwave Therapy** initiates and promotes your body's stem cells to repair and regeneration damaged soft tissue like ligaments, tendons, blood vessels, and muscles.

Conditions that Response to Shock Wave Therapy

Neck and Back Pain	Tennis Elbow	Hip Joint Pain
Shoulder Pain	Golfer's Elbow	Carpal Tunnel
Elbow Pain	Plantar Fascitis	TMD/Jaw Pain
Knee Pains	Achilles Tendinopathy	Blood Vessel Damage
Ankle Pains	Patellar Tendinosis	Non-Union Fractures

We're excited to invite you and your family to visit us for a complimentary evaluation to see if Pulsed Wave Therapy may be right for you. We only take on cases we believe we can truly help—your assessment will guide us in making that decision together.

Call our office at (651) 267-0394 to schedule your evaluation at a time that works best for you. We're eager to help you get back to living a healthier, pain-free life.

Thank you for continuing to trust us with your chiropractic care. We are honored to serve you, and we will always strive to stay at the forefront of innovation to bring you the best possible results.

In Health,

Dr. Kayvon Behnam, D.C.
